---

# About Our Company

AI-assisted collaboration klub, a digital space to bridge academia, industry, policymakers, innovators and finance in the energy sector across generations, to accelerate energy transition.

# Problem

## Fragmentation in the Energy Industry

**Poor Stakeholder  
communication**

**Continuing  
discussion**

**Siloed  
Information**

**Partner  
Discovery**

**Limited  
Resources to  
connect for  
Start-Ups**

**This makes collaboration difficult**

# Solution

## The Energy Collaboration Platform

### AI- Assisted Club

A collaborative  
community  
platform designed  
for energy  
professionals.

### Data Repository

A comprehensive  
source of  
centralized energy  
data.

### Community building

Optimized  
Networking and  
intelligent  
partnership  
capabilities.

This makes collaboration easier with AI

# TEB Engagement

## Community Platform

AI-Assisted Klub, a collaborative community to share news, gather data resources and actionable insights

## Content creation

We deliver insights through Podcasts, Research dissemination, and energy reporting

**Join, listen and let's gather!**

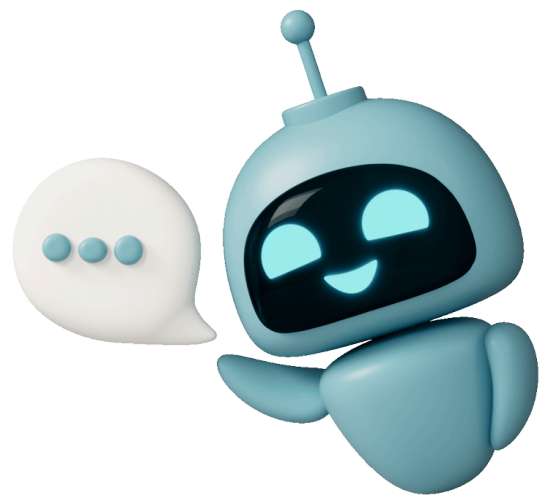

## Energy Forums

Host events on-site to gather academia, industry, Innovators and policymakers

# TEB Klub Products

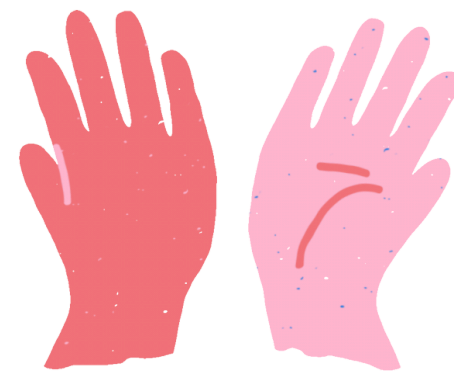

## AI Energy Agent

Personalized assistance and insights.

## Data Repository

Latest news, legal and technical libraries.

## awesome! Community

Networking, education, partner connections and more

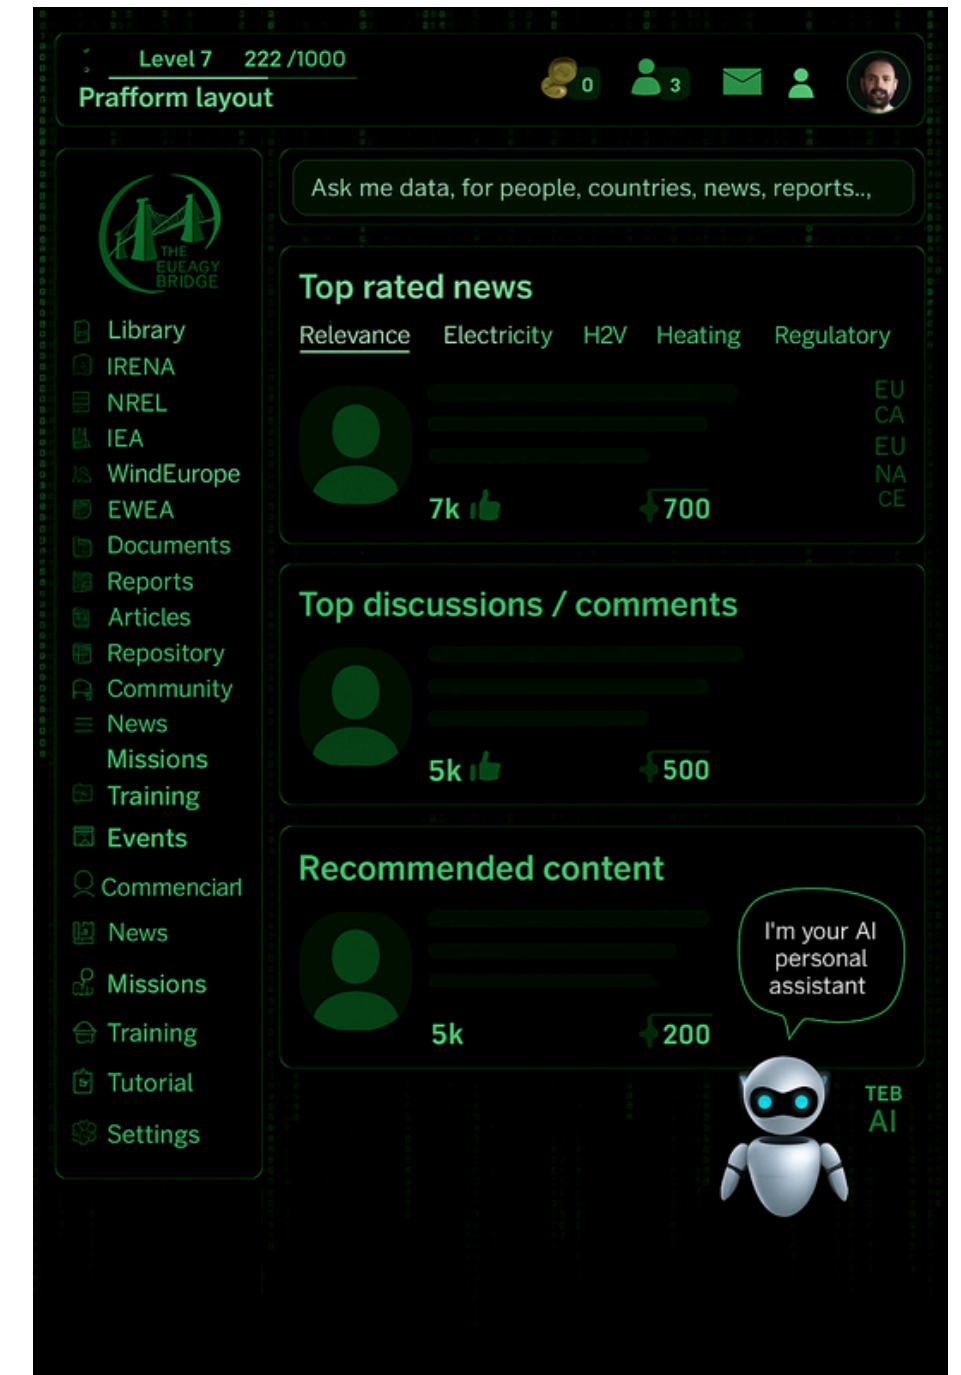

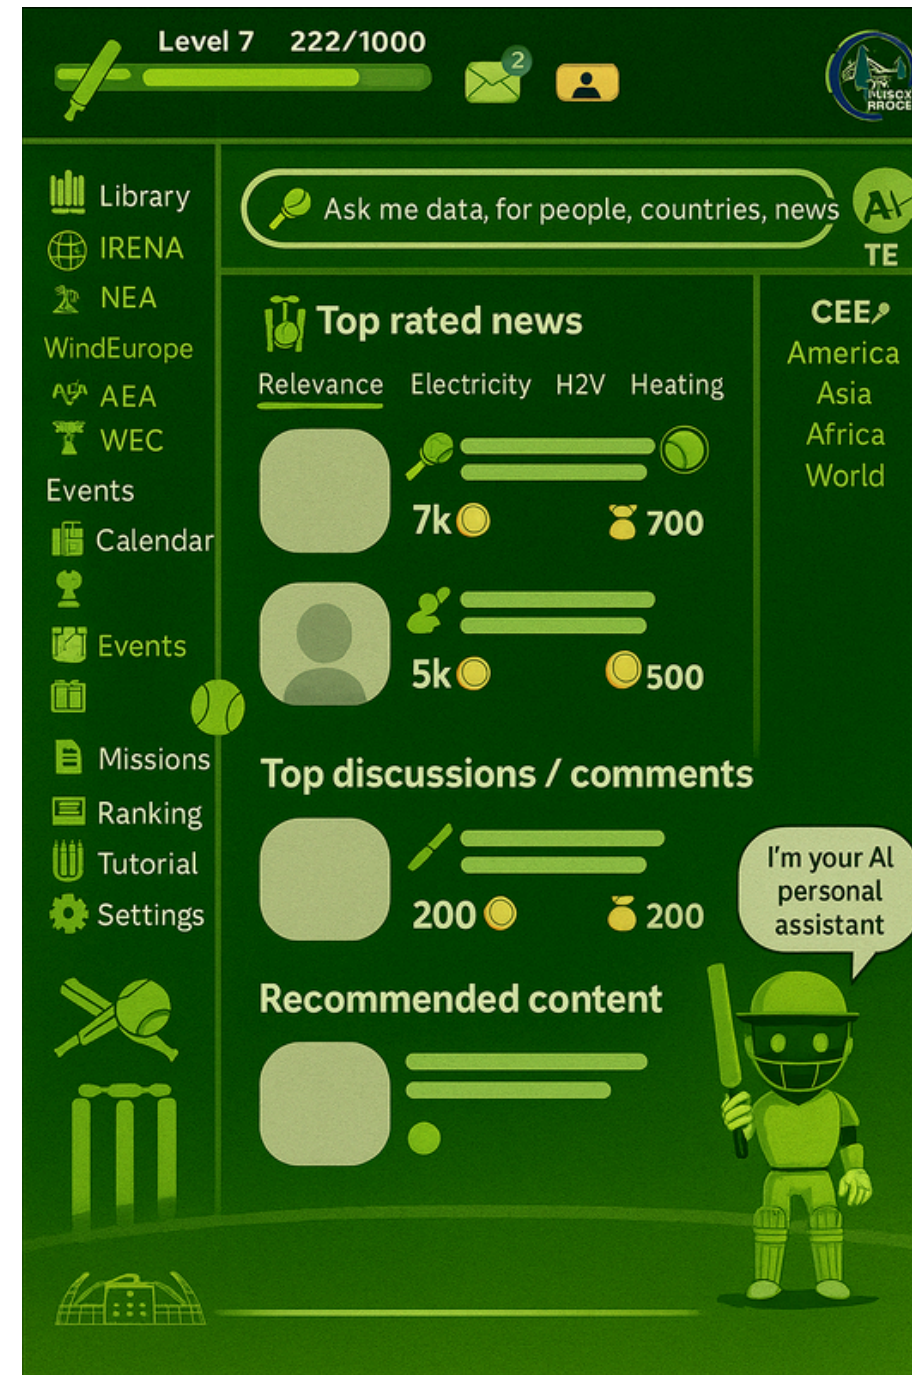

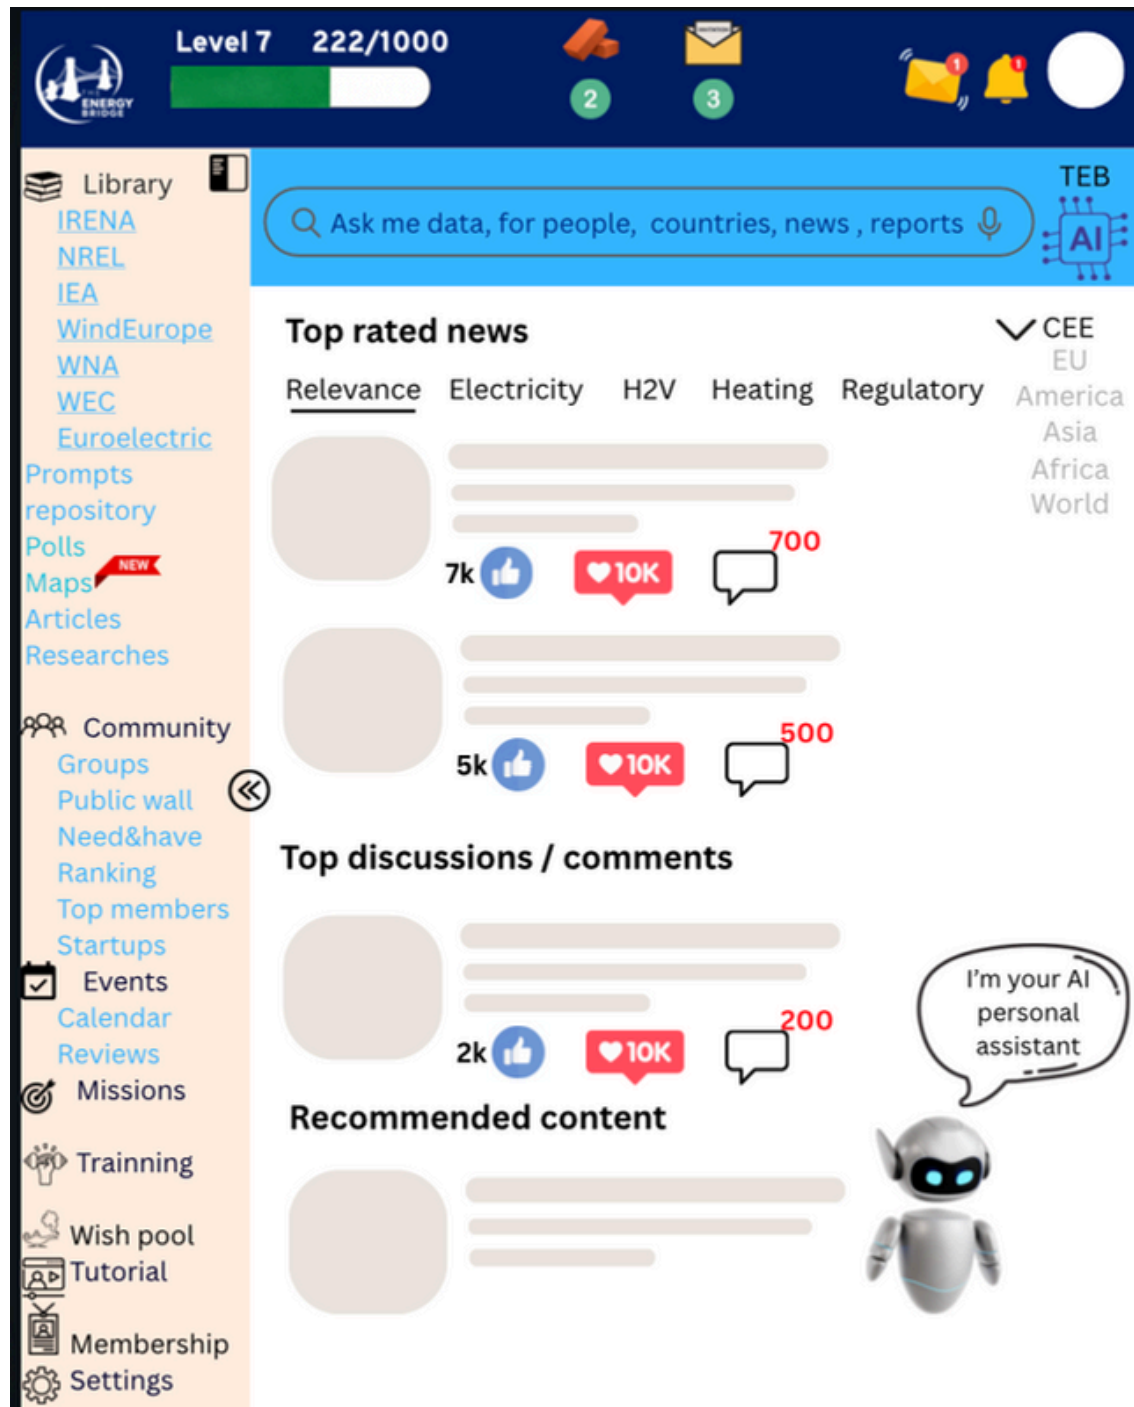

List of more than 50 features in TEB Klub

# Feature example - Personalize it!

# Formalizing TEB network

**ACADEMY /  
RESEARCH**

**INDUSTRY**

Incorporate companies and sell licenses  
Start with the premium memberships to get **10.000 members and 1.000 premium**  
To reach 100 podcasts and videos.

○ December 2026

## Stage 1 - MVP

To have the platform in V1 to integrate the first members  
To organize 2 events  
To publish 50 podcasts and videos.

● December 2025

# Our Team

**Rahul Mishra**

A results-driven professional with background in business development and strategic research, specializing in supporting high-growth startups within the energy and technology sectors. With expertise in the energy transition landscape, built upon experience with organizations like ScaleUpNation and managing energy media platforms such as Enlit. Currently pursuing a Master's in Renewable Energy Systems.

**Daniel Schaub**

Electrical engineer, specialized in Power electrical systems, with 10 years of experience in the renewable energy sector, 7 years working at the Ministry of Energy in Chile in the Renewable Energy Division, in Public Solar Roofs Program among others, and 3 years in the private sector developing renewable energy projects, in Chile and LATAM at Renova Energias. Currently candidate for MSc in Renewable Energy Systems at TU Wien.

# Our Team

Bringing an international and fresh image to the energy sector, we aim to engage audience and invite to understand with us the process of the Energy Transition, and how to accelerate it.
